High Level Architecture

Egwold

Bronze Layer

Stored Procedure

Raw Data

Object Type: Tables

Full Load

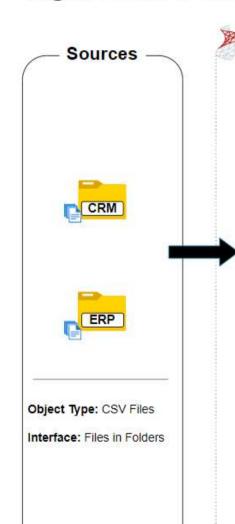

· Batch Processing

· Truncate & Insert

Data Model: None (as-is)

Load:

SQL Server

Data Warehouse

Silver Layer

Stored Procedure

Cleaned, Standardized Data

Object Type: Tables

Load:

- Batch Processing
- Full Load
- · Truncate & Insert

No Transformations Transformations:

- Data Cleansing
- · Data Standrization
- Data Standization
 Data Normalization
- Derived Columns
- Delived Coldinin
- Data Enrichment

Data Model: None (as-is)

Gold Layer

Business-Ready Data

Object Type: Views

No Load

Transformations:

- Data Integrations
- Aggregations
- Business Logics

Data Model:

- · Star Schema
- Flat Table
- · Aggregated Table
